

## LET'S FIND THE SILVER LINING... in the clouds and rain we saw on CROP Hunger Walk Day!

A lot of people walked with us on CROP Walk Day in spite of the weather -- a truly inspiring effort on behalf of hungry people around the block, and around the world! At the same time, the weather understandably kept some Walkers away.

Consequently, hunger-fighting programs here in our community and vital efforts our CROP Walk helps to make possible worldwide -- initiatives that are giving children and families a hand up in more than 80 countries worldwide -- are in jeopardy.

But, together we can find the silver lining and turn back those clouds!

If you were able to walk in spite of the weather, THANK YOU! Now be sure to collect any outstanding pledges. Your sponsor may want to give something extra to fight hunger because of your extra effort.

If you were unable to walk because of the weather we appreciate your efforts. PLEASE take the next step to collect ALL your pledges and turn them in to your recruiter. Every gift is more important than ever!

If you or your church want to give a special SILVER LINING gift to help end hunger and help offset the support that may have been lost due to weather, that too will be greatly appreciated. Checks should be made payable to Church World Service/CROP and turned in to your congregation's recruiter.

All our efforts make an important difference for our neighbors in need, both near and far! Rainbows of thanks for your active caring and faithful sharing!
